- 25X1X 1. [ ] March 1950, FINSTERWALDE airfield (A15) was occupied by fourteen PO-2's, four of which were observed in flight. During the observation period, there were many individual training take-offs and landings in these aircraft.
2. No jet planes were seen on the field and local residents state that none have made an appearance at FINSTERWALDE. Some jets of the type based at GERHENDORF flew over FINSTERWALDE at approximately 1,500 meters; the direction of these and similar flights, to and fro, during source's presence in the area, suggested that these jets came from ALT LOENNEWITZ (E84).
3. There have been no apparent changes at FINSTERWALDE during the last year. Ground reconnaissance did not disclose concrete runways, but these may exist - terrain and visibility made observation difficult. 25X1C
